

After many years using Autocad to create 2D/3D MEP (M&E) drawing with non-BIM(Building Information Modeling) application, we have switched to use Revit BIM software, providing customers MEP (M&E) BIM models with completed detail schedules and manufacturing information.

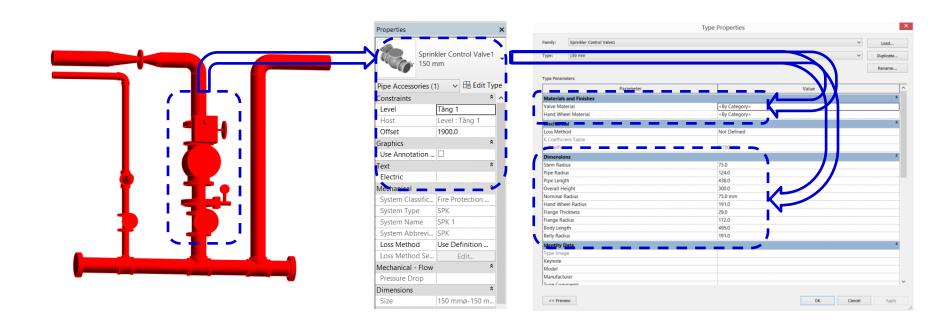

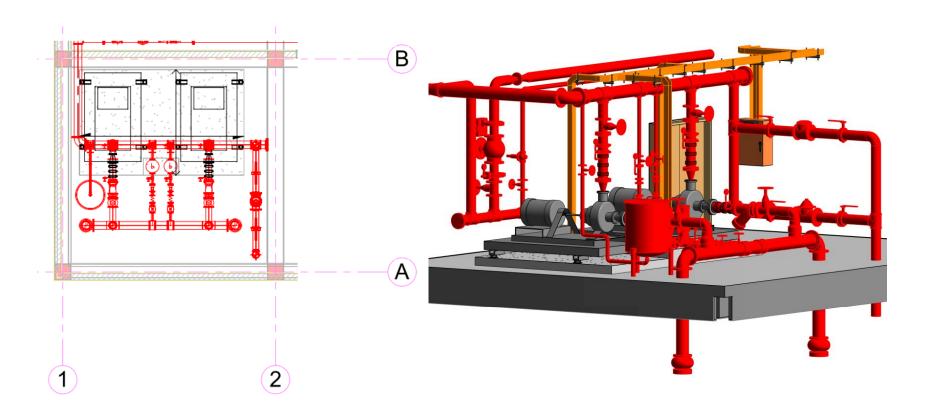

One of key differences between modern BIM technology and traditional software is the objects created by BIM models represent for actual elements in a construction project. Therefore the information in the BIM model becomes more useful to designers, installers and cost consultants.

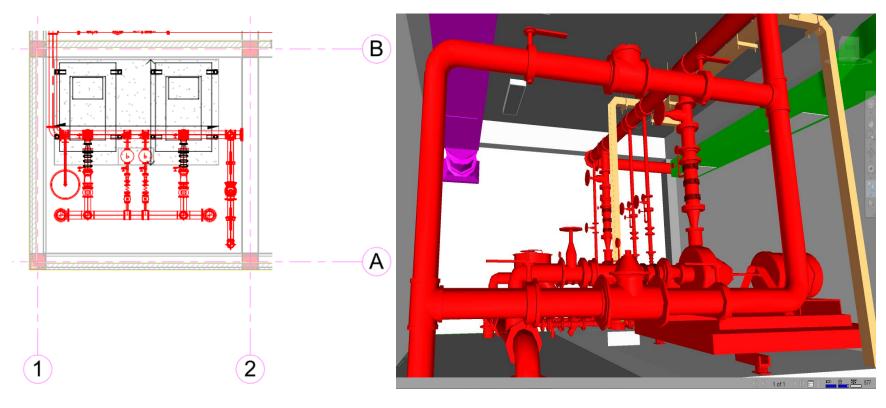

We provide MEP (M&E) modeling services base on a stand alone or as part of the complete design including the structure and the services.

FIRE PROTECTION PLAN VIEW (2D) FIRE PROTECTION PLAN VIEW (3D)

It gives us the model and presence for all components of the system (unlike 2D CAD drawings) and thus ensure that the problem of installation space is resolved before installing.

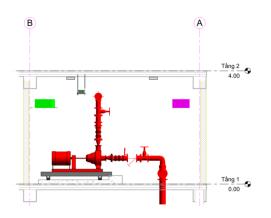

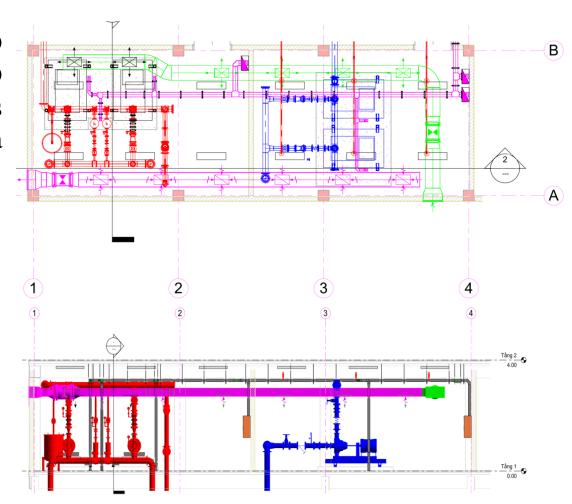

FIRE PROTECTION PLAN VIEW (2D)

FIRE PROTECTION PLAN VIEW (3D)

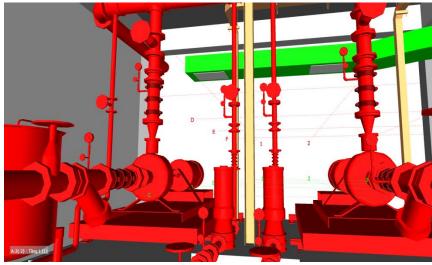

Compared with 2D drawings alone, the 3D model allows our clients to view detailed areas in a 3D space.

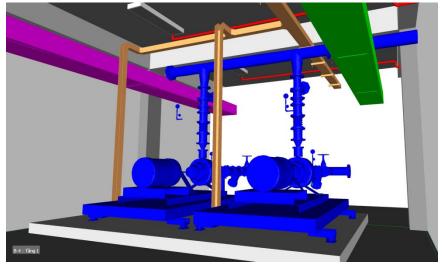

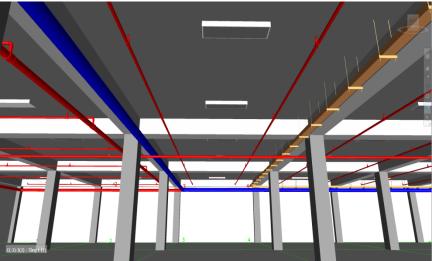

Allow any views, sections and detailed drawings are presented easily and quickly.

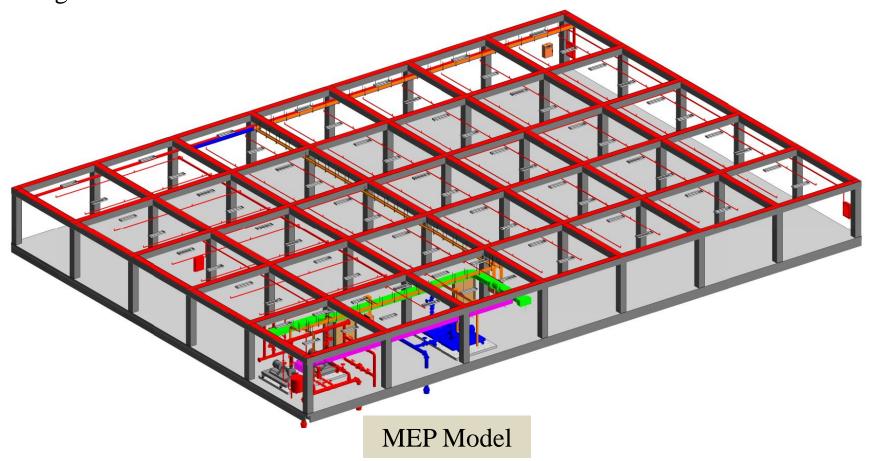

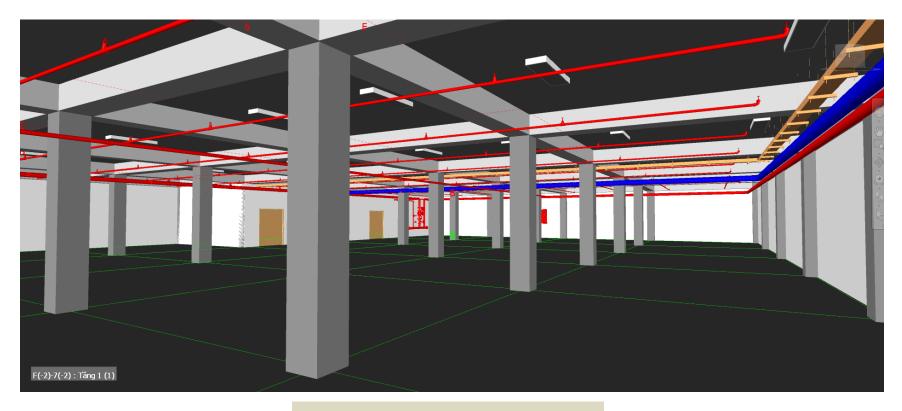

We found the clashes were designed by the design consultants and then we rebuild the model and resolve the clash of systems until the design is no longer clash.

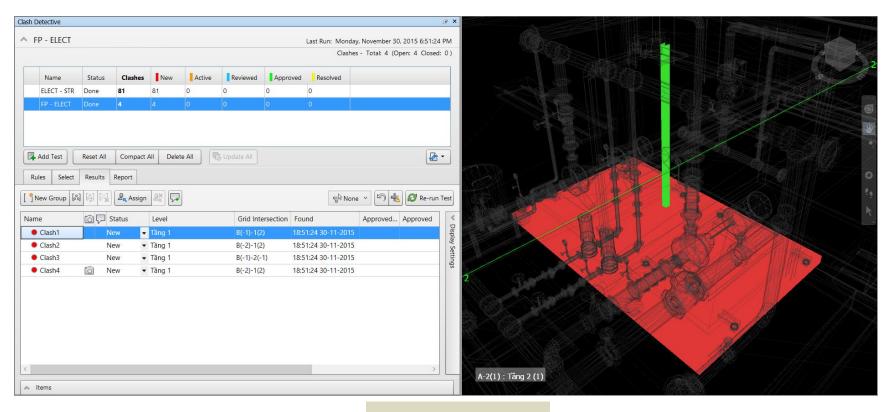

By creating a virtual 3D model, we are able to offer many advantages to our clients: It allows us to ensure that there are no clashes (this can be validated easily using clash detection software tools).

Combine services drawing

By using Revit MEP software 3D (M&E) and collision detection technology (Autodesk NavisWorks) to coordinate to coordinate with the building, we offer "clash free solutions"

Check clashes

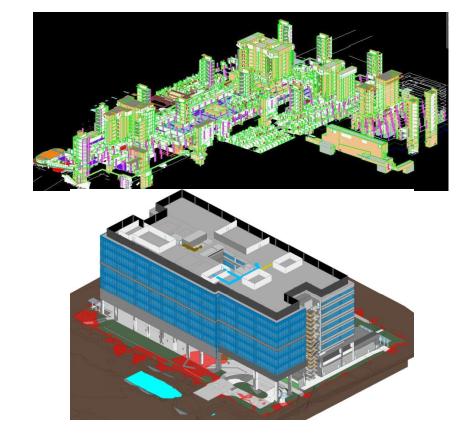

Prevent delays and disputes over work for all of the system clash was resolved on the model before the actual installation.

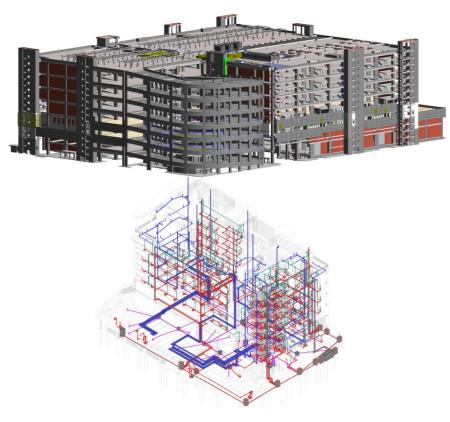

Our experience in building MEP modeling is growing more and more and we have done a series of 3D MEP modeling projects following:

- Hospitals, Airport.
- Industrial Building, Factory
- Office building, High stories buildings...

# **Highlight Projects**

#### SENG KANG HOSPITAL

Owner : Ministry of Health College of Medicine BLDG

**Location**: Senkang East way/ Senkang East Road/ anchorvale Street (Senkang Planning area),

Singapore

Description: An integrated Regional hospital, a community hospital and specialist outpatient

clinics on lot 02019N PT & 02466A PT MK21

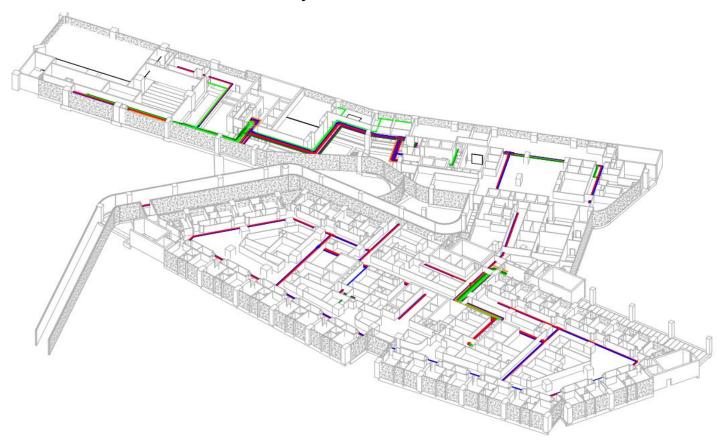

#### TTSH HOSPITAL

Owner : Ministry of Health College of Medicine Building

**Location**: Jalan Tan Tock Seng, Singapore

**Description**: Proposed erection of national centre for injection disease, centre for health care

innovation with basements and ancillary works

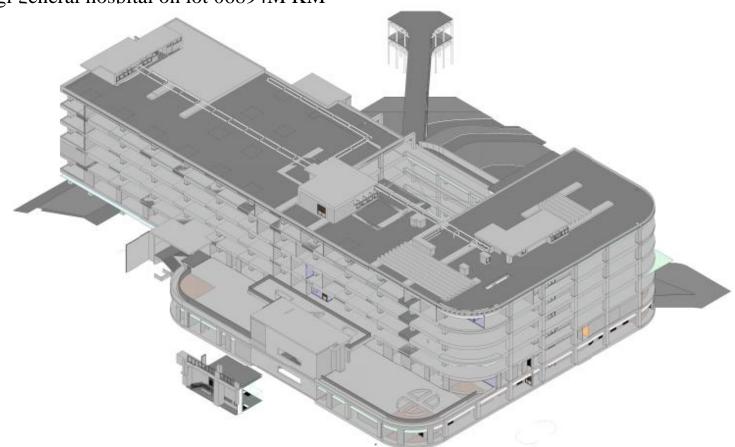

#### **Changi Medical Center (CMC)**

Owner : Ministry of Health College of Medicine Building

**Location** : Semei Street 3 (Tampines)

**Description**: 8-storey Medical centre cum administration office with basement carparks for

Changi general hospital on lot 06894M KM

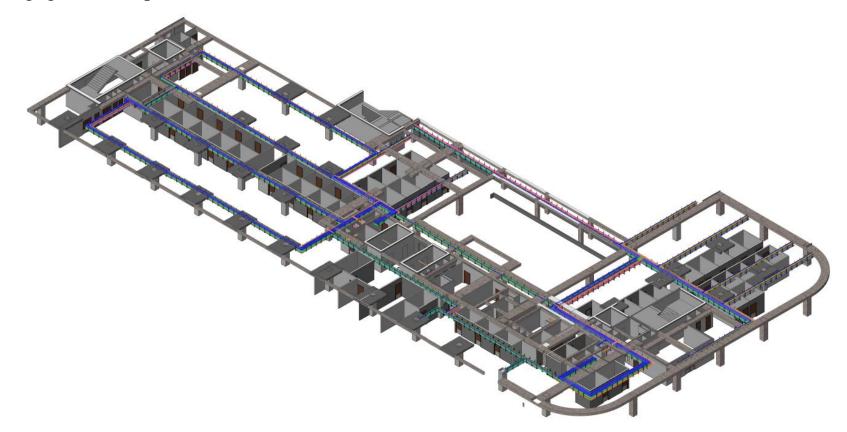

## **Changi Medical Center (CMC)**

Owner : Ministry of Health College of Medicine Building

**Location** : Semei Street 3 (Tampines)

**Description**: 8-storey Medical centre cum administration office with basement carparks for

Changi general hospital on lot 06894M KM

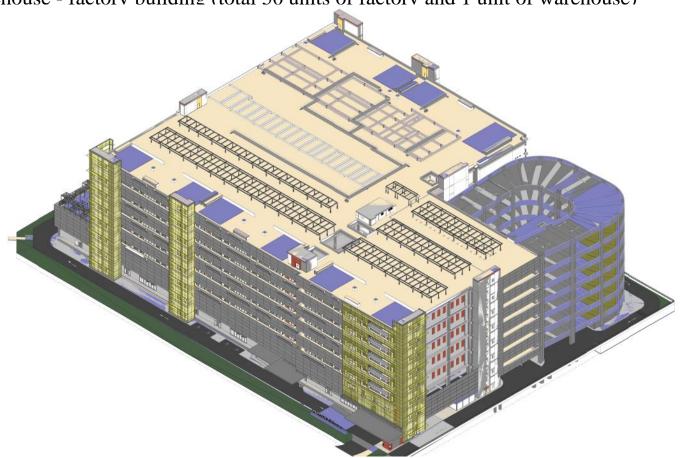

#### **FOOD HUB**

**Owner** : JTC Corporation

**Location**: Senoko Drive (Sembawang Planning area)

**Description**: Proposed erection of a food hub comprising a block of 7-storey multiple - user

warehouse - factory building (total 50 units of factory and 1 unit of warehouse)

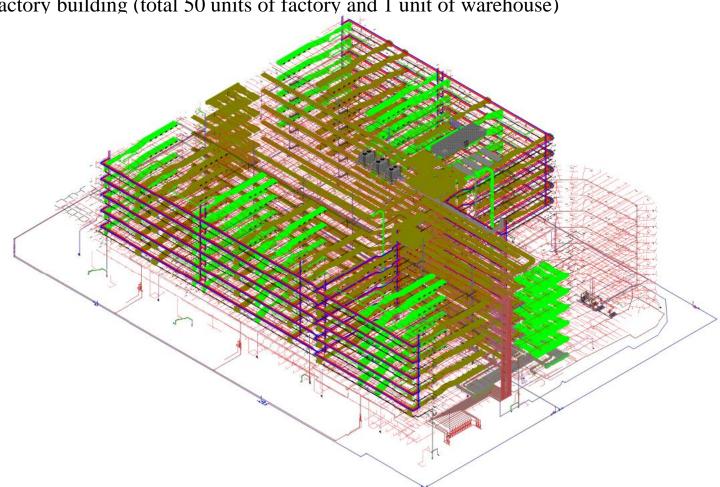

#### **FOOD HUB**

: JTC Corporation Owner

**Location** : Senoko Drive (Sembawang Planning area)

**Description**: Proposed erection of a food hub comprising a block of 7-storey multiple - user

warehouse - factory building (total 50 units of factory and 1 unit of warehouse)

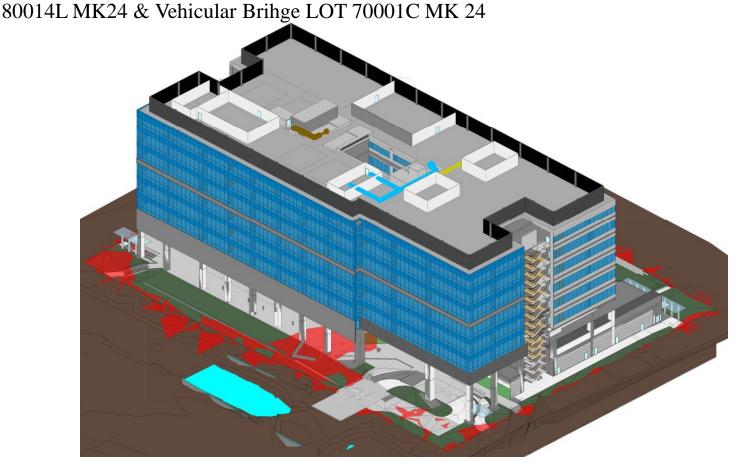

#### **TAISENG**

Owner : Mapletree Trustee PTE LTD

**Location**: Tai Seng Street (Hougang South Planning area), Singapore

**Description**: A muti-users 9 storey- Business 2 Industrial Building with 2 basement levels and commercial use (white) on 1st storey and basement 1 lots 7266P MK23, Subterranean Lot 80014L MK24 & Waltigarden Bribara LOT 70001C MK 24

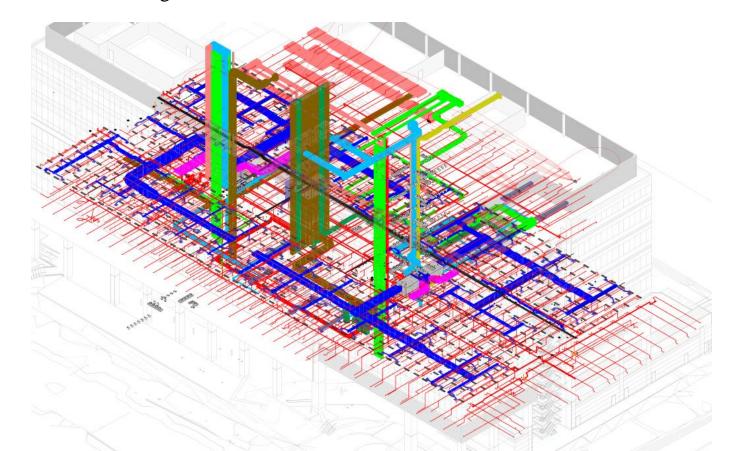

#### **TAISENG**

Owner : Mapletree Trustee PTE LTD

**Location**: Tai Seng Street (Hougang South Planning area), Singapore

**Description**: A muti -users 9 storey- Business 2 Industrial Building with 2 basement levels and commercial use (white) on 1st storey and basement 1 lots 7266P MK23, Subterranean Lot 80014L MK24 & Vehicular Brihge LOT 70001C MK 24

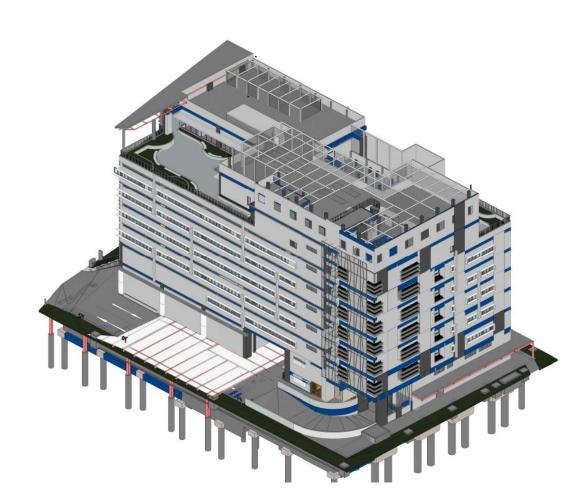

#### **POLYCLINIC**

Owner : Ministry of Health College of Medicine Building

**Location**: Jurong West street 61, Singapore

**Description**: Pioneer Polyclinic

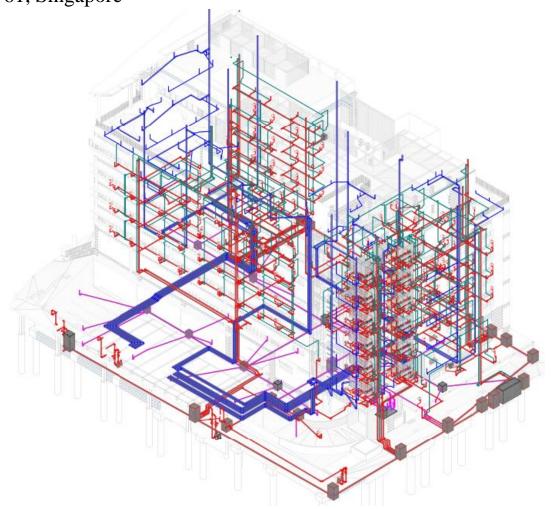

## **POLYCLINIC**

Owner : Ministry of Health College of Medicine Building

**Location**: Jurong West street 61, Singapore

**Description**: Pioneer Polyclinic

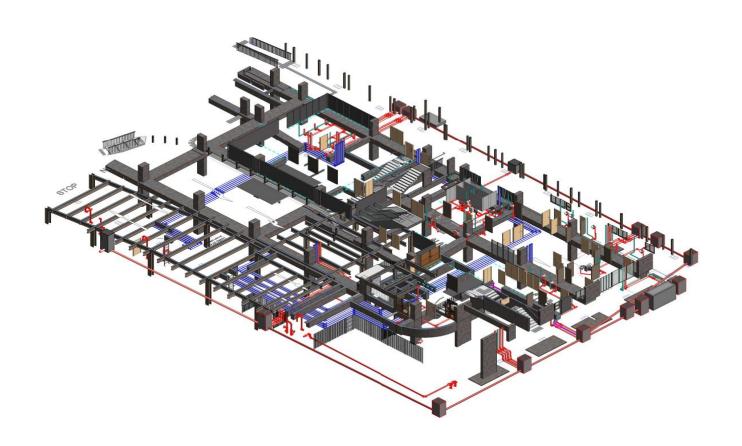

#### **POLYCLINIC**

Owner : Ministry of Health College of Medicine Building

**Location**: Jurong West street 61, Singapore

**Description**: Pioneer Polyclinic

#### MEKONG CONSULTANT-TRADING-CONSTRUCTION JSC

Head office: FL14-08B, Vincom Tower, 72 Lê Thanh Ton St, Ward Ben Nghe, Dist 1

Tel: (84-8) 6288.5109 Fax: (84-8) 6268.8188

Rep office: FL05, Hai Au Building, 39B Truong Son St, Ward 4, Tan Binh Dist
